The Services

The APEC Secretariat is seeking proposals for the Assessment of Capacity Building Needs to Support WTO Negotiation on Trade Related Aspects of E-commerce.

1. Background

Cross-border e-commerce is one of the fastest growing segments in global trade and stimulates growth in the Asia-Pacific region. In light of this, APEC has advanced many initiatives including those that follow below.

The 2017 APEC Cross-border E-Commerce Facilitation Framework agreed to promote “transparent and predictable legal and regulatory approaches and measures that are business friendly and coherent to facilitate cross-border e-commerce in the region” as one of its working pillars. Likewise, the 2017 APEC Internet and Digital Economy Roadmap identified “facilitation of E-commerce and Advancing Cooperation on Digital Trade” as one of its focus areas. Based on these guiding principles, Singapore gathered measures and policies related to e-commerce by voluntary inputs from APEC economies and published them in the APEC Trade Repository in 2018 (2018/SOM3/CTI/023). In addition, Viet Nam researched current status of e-commerce legislations on electronic transaction and electronic signature, consumer protection in e-commerce, privacy and cyber-crime, and dispute resolution in APEC economies in 2018. Korea conducted FTAAP Capacity Building Workshop on E-commerce Elements in FTAs/RTAs in 2019.

In recognition of the importance of e-commerce in global trade, WTO has been undertaking programmes on e-commerce. In January 2019, several WTO members announced their intention to kickstart negotiations on trade-related aspects of e-commerce.

2. Objectives of the project

This study has been designed to contribute to the WTO process as well as the capacity building activities that may arise from it. It comprises of two main components, namely: (1) the database component; and (2) the case study component. This request for proposal (RFP) is specific to the case study component.

Based on the database component (undertaken by the PSU) and the review of various documents submitted by WTO members (e.g., joint communication, non-paper), this study comprises of analysis in six focus areas, namely:

- **Focus Area A – Electronic transaction framework**: covering electronic authentication (i.e., e-contract/e-signature/e-identification); electronic payment; electronic invoicing; trade facilitation; and taxation and customs duties.
- **Focus Area B – Openness and cross-border related issues**: covering cross-border data flows; competition; principles on access to and use of internet for digital trade; intermediary liability, IP-related and online content-related regulations; and open data.
- **Focus Area C – Consumer protection and privacy issues**: covering consumer protection; unsolicited commercial electronic messages/spam; and data protection and privacy.
- **Focus Area D – Cybersecurity/network security**.
- **Focus Area E – Infrastructure-related aspects, including telecommunications**.
- **Focus Area F – Goods and services market access**.

While the database is useful for cross-economy comparison, it has limitations for policy analysis. For example, although the database allows one to find out quickly if a particular economy has ratified the WTO Trade Facilitation Agreement (TFA), it is challenging to capture in details what the economy has introduced to operationalize the TFA. Likewise, it is necessary to complement the information that a particular economy requires or does not require with conditions to be met before data can be transferred across borders. This can be coupled with information on how the economy achieves the delicate balance of safeguarding personal data protection and security as well as ensuring that regulations do not negatively affect business operations. Moreover, the fact that the database captures the regulatory environment at a point in time means that it does not allow useful economy-level experiences to be recorded and shared.

The case study component aims to remedy this shortcoming. For instance, selected case studies can help to showcase the underlying motivations for revising existing regulations or introducing new regulations, the process of doing so as well as how the revision/introduction has contributed to the e-commerce landscape in the economy.
Each case study should consist of a write-up with information obtained from both primary (i.e., interviews) and secondary sources (i.e., desk-based). The PSU strongly encourages that interviews should be conducted with a range of stakeholders (e.g., government agencies, regulators, port operators, businesses, etc.) to gain wider perspective. Ideally, semi-structured interviews should be employed to allow focus on a particular topic, and at the same time, enable participants to share new information, which the interviewers may seek additional materials on.

3. Scope of Services

3.1 Description of Services

This RFP is looking for the development of up to **five (5) case studies**, each focusing on a specific focus area as described above (i.e. Focus Area A to F). Each case study should showcase the laws and regulations/initiatives/programmes/best practices and their implementation from more than one economy. Contractors can submit proposal to undertake between 1 to 5 case studies, and are strongly encouraged to ensure diversity of economy. The PSU will select the case studies from the proposals submitted by the Contractors. **Contractors must be able to tap on its own networks of stakeholders for the purpose of identifying, arranging and conducting interviews. The capacity to independently and successfully implement the proposed interviews should be explained in the submitted proposal.**

Since each focus area comprises of various elements, each case study should begin with a clear discussion of the aspects of the focus area that are covered. In developing each case study, Contractors should take a balanced approach, noting that the opportunities and challenges faced by each economy may be specific and dependent on multiple factors including its level of development and legal systems. This is particularly important when identifying the key lessons and hence the accompanying policy recommendations.

The PSU reserves the right to either award the entire project to one Contractor or to several Contractors, and will evaluate all proposals on a **case study by case study** basis.

[Please also refer to RFP Schedule 5 – Evaluation Criteria]

3.2 Expected Outputs and Timelines

The Contractor will provide the following deliverables for **each case study**:

a) **Inception Report**, identifying and proposing the case study methodology, a work plan for the fieldwork/interview programme, and a proposed outline of the Final Report. It should also have a clear discussion of the aspects of the focus area covered.

b) **Draft Report 1**, containing draft case study and findings for review by the PSU.

c) **Draft Report 2**, containing draft case study and findings for review by the PSU and APEC economies.

d) **Final Report**, containing final case study and findings, and incorporating all comments received from the PSU, APEC economies and other reviewers. If applicable, this will be accompanied by a separate document containing proofs that the copyright permissions for copyrighted materials (e.g., charts, pictures, figures) have been granted by the copyright owners.

e) **Travel costs for attending APEC-related meetings to present or report on the project, if necessary, will be separately funded on the basis of economy class airfare and per diem. However, the time involved in preparing for the presentations and travelling to such meetings will be considered part of the consultant’s commitment to the project and will not be separately compensated.**

CONTRACTOR LIABILITY FOR PERSONAL INJURY AND/OR PROPERTY DAMAGE

9.1 If the Contractor, its employees, agents or contractors directly or indirectly causes any loss or damage to person or property during the performance of the Contract, the Contractor will bear all liability on behalf of the APEC Secretariat. If someone makes a claim against the APEC Secretariat (whether during or after the completion and/or termination of the Contract) for any loss or damage to person or property directly or indirectly caused by the Contractor, its employees, agents or contractors during the performance of the Contract, the Contractor must indemnify and hold the APEC Secretariat harmless from and against any and all loss, damage or liability, whether criminal or civil, suffered by the APEC Secretariat in connection therewith and reimburse the APEC Secretariat for any costs it has incurred in connection therewith (including actual legal costs on a full indemnity basis) whether during or after the completion and/or termination of the Contract.

9.2 For the purpose of Clause 9.1, “claim” shall mean all demands, claims and liabilities (whether criminal or civil, in contract, tort or otherwise) for losses, damages, legal costs and other expenses of any nature whatsoever and all costs and expenses (including without limitation legal costs) incurred in connection therewith.

DEFAULT

10.1 A Default is anything the APEC Secretariat considers to be a significant breach of the Contract including:

10.1.1 failure to perform an obligation under the Contract within the agreed time; or
10.1.2 failure to deliver outputs of satisfactory capability, quality or reliability.

10.2 In the event of a Default by the Contractor, the APEC Secretariat shall write to the Contractor setting out the Default and the time by when the Contractor must fix it. If the Contractor fails to fix the Default within the time specified, the APEC Secretariat may immediately terminate the Contract by issuing a written Notice of Termination to the Contractor.

10.3 Termination under this clause does not affect the rights and/or remedies either party may have accumulated up to the date of termination including the rights and/or remedies the APEC Secretariat may have in relation to the Default.

11.2 The APEC Secretariat shall own all intellectual property and confidential information that it creates in relation to the Services. The APEC Secretariat shall own all intellectual property and confidential information that the Contractor creates as a result of performing the Services. In particular, the APEC Secretariat shall own the following:

11.4 The Contractor consents to the APEC Secretariat’s use of the Contractor’s own intellectual property and/or confidential information if the APEC Secretariat requires the Contractor’s own intellectual property and/or confidential information to use the Services.

11.5 The Contractor shall protect all intellectual property and/or confidential information belonging to the APEC Secretariat vigorously to the extent permissible by law. If the Contractor has a reasonable suspicion that there has been any event that infringes the rights of the APEC Secretariat in relation to its intellectual property and/or confidential information, it will inform the APEC Secretariat immediately in writing.

12 CONFLICT OF INTEREST

12.1 The Contractor warrants, agrees and undertakes that neither it nor its employees, servants and/or agents has any arrangement, interest, activity, or relationship that could impair the Contractor’s ability to act impartially and effectively in the delivery of the Services as required by this Contract.

12.2 The Contractor shall exercise its responsibility in the best interests of the APEC Secretariat and shall not engage in any activities that would conflict with this Contract.

12.3 If the Contractor becomes aware of any actual or potential conflict of interest as defined in Clause 12.1 and 12.2 above, the Contractor shall immediately notify the APEC Secretariat in writing of (i) any such actual or potential conflict of interest and (ii) the procedures it intends to implement to resolve any such actual or potential conflict of interest.

Any compensation to the Contractor must not exceed the total value of the Contract, which is set out in Clause 2.1, “Payment” in Special Conditions.

16.2 Upon receiving a Notice of Termination, the Contractor shall immediately stop work as specified in the notice, except if directed otherwise by the APEC Secretariat.

16.3 Upon receiving a Notice of Termination, the Contractor shall submit a final termination settlement proposal to the APEC Secretariat. The settlement proposal must include a certification from the PSU Project Lead of the actual costs the Contractor has incurred.

16.4 If the Contractor fails to submit the termination settlement proposal within seven (7) days from the date of the Notice of Termination, the APEC Secretariat may in its sole discretion determine the amount, if any, due to the Contractor following the termination.

16.5 Upon termination of the Contract, subject as provided in this clause and except in respect of any accrued rights, neither Party shall be under any further obligation to the other.

WAIVER

23.1 A Party's failure, delay or relaxation in exercising any power or right it has under this Contract does not mean that the Party has given up (i.e. waived) that power or right.

23.2 A Party exercising a power or right does not stop it from:
   23.2.1 further exercising that power or right; or
   23.2.2 exercising any other power or right under this Contract.

26.3 Where the Contractor thinks there is likely to be a delay in performing an obligation under this Contract because of a Force Majeure Event the Contractor shall:
   26.3.1 immediately notify the APEC Secretariat in writing of:
       26.3.1.1 the likely delay and how long the Contractor thinks it will last; and
       26.3.1.2 details of the likely effect on the Services and the Contractor’s ability to perform the Contract;
   26.3.2 take all reasonable steps to lessen (i.e. mitigate) the effects of any delay; and
   26.3.3 use its best efforts to continue to perform its obligations under the Contract.
26.4 The APEC Secretariat and the Contractor shall, as soon as practicable after receiving the notification, discuss whether the Contract can continue. If, following that discussion, the APEC Secretariat and the Contractor agree that the Contract can continue they may:
